JHON URREGO MEJIA

has successfully completed the online, non-credit Specialization

Microsoft Copilot for Software Development

Become an expert at using Copilot in your development workflow! Learn how generative AI, particularly Copilot, can help you improve your productivity, efficiency, and effectiveness in your role. This comprehensive course offers a solid foundation in utilizing AI in software development, focusing on GitHub Copilot's capabilities to improve your coding practices. From understanding the basics of generative AI to learning how to apply it in code review, documentation, development planning, and more, you will learn practical skills based on real-life scenarios to help you enhance your abilities.
