JHON FELIPE URREGO MEJIA

has successfully completed the online Professional Certificate

IBM Lead AI Transformation: Strategy, Governance & Execution

Earn the skills that define modern AI leadership. This seven-course IBM Professional Certificate takes you from AI literacy to enterprise-ready leadership—no prior AI or coding experience required. You learn to build an AI strategy, prioritize use cases, design operating models, govern AI and agentic systems responsibly, navigate regulation, lead adoption through change, and measure ROI. Across a single persistent enterprise case, you apply each skill concept-first, using IBM watsonx, IBM frameworks, and IBM Responsible AI principles as enterprise references. A standalone capstone integrates everything into a board-ready AI Transformation Executive Brief—portfolio-grade work you can show employers and boards.

LearnQuest Instructor Network

LearnQuest's Instructor Network is comprised of professionals across hundreds of technology disciplines from around the world.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
